

Registering Process in F3B Competitions

1) Every contest registration is activated on www.f3b.de at a previously defined day. As a general rule this will be the Monday 12 weeks prior to the Contest date. You will find these activation dates on <http://www.f3b.de> as well as on http://www.contest-modellsport.de/html/f3b_termin.html . Here you will also find exceptions to this "12 week rule". The time of day a competition is available online is up to the organizer (The date is binding but not the time!)

2) Upon registration on www.f3b.de every pilot will be consecutively numbered (timely order of registration). These numbers make up the first sort of sequence. After the first n pilots (n = being the max number of pilots admitted to this contest) there will be a cut-line.

Now a 2 week period will start. After this first period, there will be a second 2 week period and so on. In every of these 2 week periods the following will apply:

3) Pilots above the cut-line must pay their contest fees within this period (receipt of payment must be within the period). Pilots below the cut-line (waiting list) do not pay yet.

4) Within every two week period, in particular the Monday following the period, the contest organizer will record the pilots who have paid so far and who have not. The pilots who have been above the cut-line but haven't paid in time will be transferred to the end of the waiting list. Their sequence will stay the same. Now a corresponding number of pilots from below the cut-line (waiting list) will move above the cut-line.

5) For these pilots now being above the cut-line the 2 week paying period starts according to 3) and 4)

6) This 2 week period procedure is to be continued.

7) If a pilot (who has paid already) decides not to fly in the competition more than two weeks prior to the competition he will get the starting fee minus 15€ back. The contest organizer will keep the 15€ as an allowance. If the date of the contest is closer than two weeks, there will be no money refund at all.
